Key qualifications

I had different short and long term experiences abroad, also in developing countries (i.e. Ethiopia, Kenya and Tanzania) which have exposed myself to different social and economic contexts.

Because of my deep and growing interest in international cooperation sector, I started as intern and subsequently became a member of Cooperating Veterinary Association with Developing Countries and even my studies have been selected in that perspective.

Since beginning 2016, I signed a one-year contract for a part time collaboration with Equiliberi onlus, as administrative assistant, being responsible for accounting and directly involved in a fishing project in RD Congo.

I strongly believe in gender equality and I love to share experience with the people at any level, in respect of personal, religious and social believes.
